WHO IS IT FOR?

These briefings each focus on a different Health and Safety topic. Past subjects have included: Psychological Safety, CPR and Use of Defibrillators, Health & Safety Regulations Update and Occupational Road Risk.

COURSE OVERVIEW

Part 1: Behind the Mask: Authenticity & Belonging in the Workplace This session explores why feeling that we belong is such a fundamental part of our mental and physical wellbeing, and what happens when we feel we need to "mask" parts of who we are to fit in. We'll look at where our need to belong comes from, who is most likely to hide aspects of themselves at work, and why this matters… not just for individual wellbeing, but for building the kind of trust and openness that underpins a genuinely safe working environment. Drawing on lived experience alongside research and practical resources, the session will be interactive so participants can bring their own context and experience to explore what authenticity and belonging look like in their own teams.

Part 2: The Hidden Side of Personal Resilience We often put all our focus into looking after our teams and our organisations, which isn't sustainable unless we look after ourselves too, and that's what this session is about. Most resilience training focuses on grit, mindset and pushing through, but there's a growing and increasingly

Health & Safety Advisory and Coaching Services

Health, Safety and Environment Support Services

Balancing legal compliance with every day issues can be a challenge for any business. Changing legislation compounded by limited time to revise policy and practice can leave your health, safety and environmental systems falling short of what your business requires.

We offer a range of practical support services that can be accessed on a long-term or short-term basis either as part of a project or as ad-hoc support. The following examples are some of the most popular areas of support requested.

SAFETY HEALTH CHECK

A brief, 2-hour snapshot offering a starting point to help you improve your health and safety systems.

GAP ANALYSIS

A review of current health and safety management systems to identify areas for improvement and compliance.

SYSTEMS AUDITS

An audit of operational effectiveness on a plan, do, act, check model, identifying health and safety gaps and highlighting improvement opportunities leading to the development of an action plan.

SAFETY INSPECTIONS

An in-depth inspection of specific activities, equipment or areas and defining the risks and measures required to raise levels of health and safety practice.

RISK ASSESSMENTS (E.G. FIRE OR COSHH)

A new risk assessment or review of existing assessment results to ensure they remain compliant and relevant to the activities being conducted.

SAFE SYSTEMS OF WORK, POLICY AND PROCEDURES

A review to develop your management systems, raise standards and support your internal and external strategies, (e.g. achieving ISO 45001 or ISO 14001 certification.)

INDUCTION, TOOLBOX TALKS AND BRIEFINGS

Delivery of training and updates to new or existing employees to educate and inform as to health, safety and environmental best practices.

INCIDENT AND ACCIDENT INVESTIGATION

Helping you follow the right steps in the case of an incident or accident to reduce the potential for re-occurrence.

Safety Advisory Services

Our dedicated safety professionals are on hand to provide the support you need, when you need it. Each service is tailored to deliver hands-on support in everyday health, safety and environmental issues and offer:

- A dedicated resource focused on a specific task with no distractions
- Cost effective and flexible delivery
- A result driven service with clear objectives defined right from the start

Our commitment is to deliver support that cuts through the red tape that often brings confusion, misinterpretation and leads to valuable time to being wasted.

Our goal is to promote the value of good health, safety and environmental management, guiding you and your employees towards implementing steps that add value to your business and employee wellbeing.

In your initial consultation meeting, your dedicated consultant will have the opportunity to match your needs to the most appropriate service suited to your business. The options for this are detailed below.

ANNUAL SAFETY SUPPORT CONTRACT

Offering three annual contract options, our Silver, Gold or Platinum service enables you to select the best level of support to meet your needs. Each package combines a set of deliverables conducted over 8, 12 or 18 days per year:
